KENNEDY TO MANAGE THE N. Y, AMERICAN LEAGUE CLUB.

Promoter Says He Has Unlimited Financial Backing and Good Grounds in View.

Kennedy, the well-known fight promoter, had been selected as the man to lead the American League forces in New York, and that within a few days he would publicly announce the location of the new American League grounds in quarters in the St. James building.

He knows the game from start to finish, and as a manager, his peer is not in the city. He has successfully promoted a number of fighting clubs, and is known from coast to coast. Aside from this, Kennedy was for years actively engaged in baseball work. His business partner is P. T. Mr. Kennedy was seen at his office this morning and said:

"I am sorry that this thing has become public just at this time. Within two or three days it was my intention to publicly announce my connection with the American League and make public many important details.

"There are one or two important details to be arranged yet. I expect to see Ban Johnson shortly. The location of a suitable playing ground, of course, is the chief thing that must be contended with in New York to make an American League invasion successful. We have several sites under consideration, any one of which we can get. A deal may be closed at any minute.

"As far as the money for financing a team here goes, you can say that I have one of the most influential and wealthy men in the city back of me in this thing, and I have been promised the very pick of players. The announce."

Would be a big underlaying.

The National League magnates got down to work early this morning. The session was presided over by John T. Brush. There were present at the meeting Andrew Freedman and Fred Knowles, New York; A. H. Soden, Boston; Barney Dreyfuss and Harry Pulliam, Pittsburg; Harry Von der Horst, Ned Hanion and Charles Ebbets, Brooklyn; Col. John I. Rogers and A. J. Reach, Philadelphia; James Hart, Chicago; Max Fleischmann and August Herman, Cincinnati. F. De Haas Robison, of St. Louis, was not at the meeting and the week every exist the week evelopments in the American League situation were taken up by the magnates as soon as they were in session. Before the meeting it was announced that some definite action might be taken to-day, and that as soon as the solons actually adopted any plan it would be made public. It is known that at last night's session the magnates favored the carrying on of a bitter fight against the rival organization.

nament of the Nassau County Club was started this morning. More than fifty men drove off from the first tee, while twenty or thirty men walted for better weather this afternoon, especially as the entire day was devoted to the qualifying round, which was cut down from 36 to 18 holes on account of the heavy entry list of 137. Although this was cut down considerably by the rain there will be enough starters to qualify for the 4 cups offered for sets of 16 each.

TWO RACE TRACKS SOON TO BE SOLD

Morris Park and Gravesend Courses Will Be Wiped Out -New Tracks Will Be Built on Long Island.

As The Evening World has said from ime to time, the Morris Park and Gravesend race courses are soon to be

Arrangements for the sale of the two beautiful courses have practically been completed, and within the next year or two the disposition of them will be made. For some time an effort has been made to cut up both tracks, but the Jockey Club staved off the sale, owing to the failure to secure other property for tracks which would be convenient

to the followers of the sport.

But now comes the notice of the purhase of a large tract of land, numbering in all two hundred and thirty-five acres, lying between Queens and Floral Park, L. I. The sale was made yesterday, and it was announced that the estate would be transformed into a new track. The land was sold at an average rate of \$750 per acre, and was purchasea by Jarvis Smith, of the firm of Gillon, Weller & Smith, of Jamaica, L. I. Just who the purchaser was could not be learned, but it is said that it was acquired by the Brook yn Jockey Club with a view of being ready to locate wherever it became necessary to vacate its present helding.

Sales Accomplished Facts.

Sales Accomplished Facts.

The sale of Morris Park, the most magnificent racing enterprise in America, is now an accomplished fact. While it is true that its new owners, the New York and Portchester Rallroad Company, or which August Belmont is the ruling spirit, can put off for a time the final disposition of it as a race course, the march of progress will very soon demand that the theatre of some of the greatest racing ever seen in this country will, ere long, be forced out of existence.

May Buy Jamaica Track.

It has been ascertained that the owners of the new Jamaica race course have been approached with a view of purchasing that property for the future needs of one of the racing associations. The course and its appointments are considered good enough for the most exigent, and perhaps the property may yet change hands, but the price must be a good one, say its present owners. How soon the two associations must vacate their present homes is a question which arises. It is a safe conclusion that neither will be forced out prematurely, but the recent purchase of land at Queens would indicate that the owners of that property may have good reasons for preparing for an early eviction.
